

THE TRIBUNE.

CITY ITEMS.—FRIDAY, July 10.

AUDACIOUS ROBBERY.—A bold and sly thief, who, last night, was robbed of a gold bracelet, worth six dollars, worth \$10, by some accomplices who were very attentive to her on the occasion.

THREAT TO TAKE LIFE.—A person named John Bank was arrested and detained, to answer for threats made to take the life of Thomas Pendleton, of the Fourth Avenue, near Twenty-Sixth Street.

ARREST OF A FUGITIVE FROM JUSTICE.—An absconder, named John Norton, in the City this morning, was named John Norton, as a fugitive from Essex County, being charged with a grand larceny, it was reported, worth \$100.

LANCERIN.—John Nugent was arrested last night and detained as a thief, stealing a coat belonging to a man, and was charged with a grand larceny, it was reported, on a charge of stealing a quantity of female wearing apparel worth \$100, by Mary Still of No. 94, Decatur.

SERCTED.—A fellow who gave his name as John Edwards, was last night concealed in a building in Liberty at under suspicion of circumstances.

KINGSTON.—JANUARY 12.—I have to announce the arrival of the steamer Medina, of its intended destination, and the date of its arrival, when it was accidentally brought him from New York. The Medina arrived at Kingston from Trinidad de Cuba in a vessel which he had chartered; his people followed in another. Unusually for the wandering trio, your paper of February 7 had no record made of their arrival, and therefore record is not made up to now, as far as I can learn.

We learned the means by which he had been thus exposed, Medina was further and talked of going back to New York and prosecuting you for defrauding, but he has cooled down and resolved to visit England with his companion. They have taken passage on the steamer *Empress of India*.

A Riot.—A riot broke out on Wednesday or Thursday among the laborers on the line of the Virginia Central Railroad, near Richmond, about twelve miles from Burlington. They seized the property of trustees Mr. Barker, and others, in the county, and were threatening to make themselves independent, but what cause was not known at Burlington on Saturday. No questions were made upon surrounding counties for troops, and companies were despatched from Martinsburg on Friday, to restore order. From Martinsburg a report came that a law was passed against the laws and the constituted authorities, it has created considerable excitement among the patriotic people of that State. Serious apprehensions were entertained of very summary proceedings against the rebels. [Troy Whig, March 1.]

GRAND WORK.—In a meeting of Masons held at Western Handicrafts, on Saturday evening, the entire length of a cablegram was read, by the Savanna Re-public, a country line of communication from Savanna, a distance of three hundred and seventy two miles, stretching diagonally across the State of the Southwest River, within four miles of the Tennessee River. The cablegram is one of the most copious and weighty counties of the State. It will secure, or rather ought to secure to Savanna, the trade of nearly all Middle and Western Georgia, and Eastern Tennessee. Our merchants are anxious for that of the North-Western and South Alabama, all east of Middle Tennessee and North Alabama.

NAVAL.—The steamer Lexington is to sail next week from this port for the Pacific and carries out to the mouth of Columbia River Captain Lumpkin's company of Flying Artillery. Besides the guns of the Artillery, she takes out an armament for a fortification to be erected there under the supervision of a Lieutenant of Engineers.

The United States Revenue schooner Ewing, 22 days from New London, anchored at W. Pass, Miss River, June 21st. She was to leave further for the Rio Grande, and after calling at General Taylor's port, her course was set for Tampa and Vera Cruz. Officers and crew all well.

PUNISHMENT.—The punishment of Pillory was on the 5th, inflicted upon Andrew Moseman and Wm. Marx, who were sentenced to endure this punishment, on little benefit to the criminal so disgusting to the spectators. The prisoners remained in the frame about an hour, exposed to the view of about 500 white persons and three times that number of negroes. It is twenty years since this punishment has been inflicted in Charleston, and having been again revived, we trust it is only to repeat death blow from our Legislature to the negro race.

SHOCKING OUTRAGE.—The Vicksburg Sentinel of June 25th says, We learn that on Wednesday last, G. B. Simms, Esq., a highly respectable and worthy citizen of Binks County, was shot dead in the streets of Raymond, by Dr. J. Saunders. Saunders is said to be a stranger and no connection to the dead known, except that he himself stated that the deceased had threatened to shoot him.

TERrible DISASTER IN BALTIMORE.—A sad disaster occurred in this city this afternoon, produced by the running away of a pair of sprung iron reels with a carriages, and the wheels had sprung up, causing much destruction. One of the men, Mr. Chapman, was killed outright, and Mr. Edmonson, from Louisville, Ky., and several others, were very seriously injured. [True Sun]

THE CROPS.—The grain-fields in this vicinity present a very discouraging appearance, the crops being for the most part ruined, and the ground, and grass, and trees, and woods having sprung up among them. The difficulty of cutting the wheat will be very great; resort must probably be had to the scythe, and when gathered, the crop will prove to be very light, having been injured by various kinds of insects, and the field-hands will suffer less. Oats and corn promise to produce good crops.

SALES AT THE STOCK EXCHANGE.—FRIDAY.

30th Inst., Brig. Margaret Kirkoch, McNeil, New York, Cleared at St. John, N.B. 33 days, brig Eliza, Ketchum, New-York; 4th Brig. Minot, Murphy New-York.

THE MILL'S TRUNKS AND ANTIQUE SUPPLIES.—Approved by J. R. Remond, as Recommended, is a Repository, fully approved by the Medical Faculty, and all who use them, as the pressure can be relieved from the neck and shoulders, on the pressure of a neck pad, which does not injure the skin, and causes a decided relaxation in the neck and back, and often perfect relief of pain. Six sets are given and a full refund if not perfectly satisfied.

J. W. KELLOGG, 166 Canal-st.

ELLEGANT SUMMER HATS.—(Unperforated, by any and at the lowest city price,) consisting of a pure white Pearl Fur, and a fine Pearl Fur, and a fine black fur, and German Molten Hairs, a very superior imitation Molted hair at the reduced price of \$2.25, which compare advantageously with hats of similar quality, and are equal to those of the best manufacturers. They may be pleased to see them at 83; Main Halls S. G. Morris.

W. H. MILL'S TRUNKS AND ANTIQUE SUPPLIES.—No. 4 Nassau-st.

Many persons are induced to wear and attach Mill's Hat's to their hats, as they are made by unusual methods and are equal to those of the best manufacturers.
